DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

(1) first embodiment, Figs. 1-3, the first light shielding film includes a metal layer M1 formed on the TFT array substrate (10) and a barrier layer B1 formed on the metal layer M1;

(2) second embodiment, Fig.4, the first light shielding film includes a metal layer M1 and a barrier layer B2 wherein the barrier layer B2 is formed on the TFT substrate (10) and the metal layer M1 is formed on the barrier layer B2;

(3) third embodiment, Fig.5, the first light shielding film includes a metal layer M3 and two barrier layer B3 and B4 wherein the metal layer M3 is formed between the barrier layers B3 and B4;

(4) fourth embodiment, Fig.6, the first light shielding film includes a barrier layer B4, a light-reflective metal layer M6, a light-reflective metal layer M5, a light-absorbable metal layer M4, and a barrier layer B3, formed in this order from the bottom to the top over the entire surface of the TFT array substrate (10);

(5) fifth embodiment, Fig.7, first light shielding film includes a metal layer M3, a barrier layer B5 formed on a side, opposite to the TFT array substrate (10), of the metal layer M3, and a barrier layer B4 formed on the side, closer to the TFT substrate (10), of the metal layer M3;

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 14, 15, 18 and 31 seem to be generic.

2. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
